

Features for Appraisers

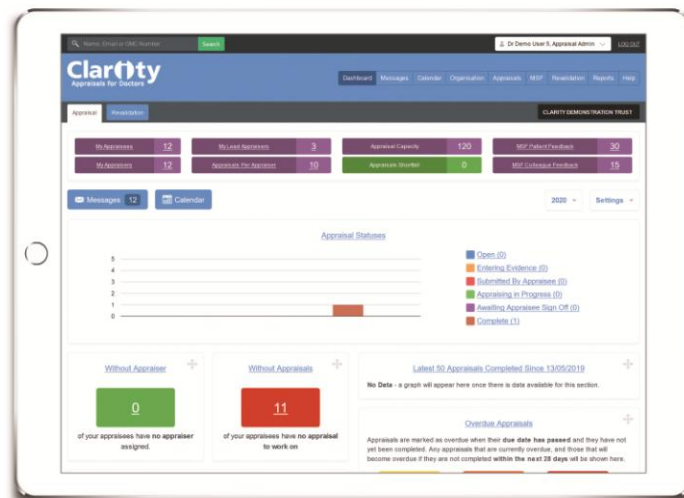

Appraiser dashboard: Collates information in one place, providing easy workflow and sign-off.

Appraiser notes: Add notes to an appraisal, either private or shared with your appraisee. These can automatically be added to the Summary of Discussion, if required.

Appraisal meetings: Create a range of meeting slots available to all, or specific, Appraisees. Edit or delete, send reminders and be reminded of any upcoming meetings.

Other features include:

- Compare MSF results against national, organisational and speciality averages.
- Access submitted appraisals instantly.
- Easy to 'revert' appraisal to your Appraisee.
- Ability to edit PDP section to help guide your Appraisees through their appraisal.
- Easy to find appraisal meetings using your homepage calendar.
- Print and download whole appraisals or individual sections.
- Grant early access to your appraisal to specific user roles, before submission or completion, for a time period of your choice.

Features for Appraisal Management

Revalidation progress: View your organisation, upcoming revalidation dates and individual clinician's progress using our Revalidation Progress overview screen.

User management: Use a variety of high-quality tools to manage users, including batch creation and allocation.

MSF Benchmarking: View results of an individual doctor, speciality averages, your organisational average or national average. Our MSF Benchmarking data is the largest in the UK and allows you to monitor low performance and view results in an easy-to-read, graphical format.

Other features include:

- Full control and management of the appraisal process and your organisational settings.
- Ability to monitor Clinicians' progress, allocate due dates of appraisals, monitor appraisal appointments.
- Easy to view organisation statistics and information.
- A wide variety of management reports with statistical filters.
- ORSA compliant reporting for appraisals and clinical governance.
- Easy to manage workflow using our Appraisal Administrator and Responsible Officer dashboards.
- Define the organisation's appraisal policy. This information will be available for appraisee's to view inside their appraisals.
- Arrange training with our expert trainer.
- G-cloud approved supplier.
